

IBM Makes Upgrading Easy

In April 2018, IBM will limit support for users operating on Cognos Analytics 10.x. Don't pay for limited support, choose one of these packaged offerings to upgrade your Cognos instance today.

1.

Cognos Upgrade Package

- Basic upgrade of current content to Cognos Analytics
- 4 Week engagement
- 500 Objects

2.

Cognos Cloud Package

- Current Content upgraded to Cognos Analytics in the Cloud
- 5-6 Week engagement
- 500 Objects

3.

Cloud Modernization Package

- Assessment of current content and strategic rebuild in the latest version of Cognos
- 10 week engagement
- 500 Objects
- Also available on the cloud

Not Sure You're Ready to Upgrade? Schedule a Free Workshop

This limited time offer includes a complimentary 1-2 day onsite workshop to explore the latest version of IBM Cognos Analytics and identify key outcomes to create a successful migration. Take away custom upgrade plan recommendations, a functional gap analysis, and a better vision of your future state.
